

## Martin Rasmussen

### PSAM12 Speaker Bio

#### Master of Science in Psychology Ph.D. Candidate in Psychology, Human Reliability Analysis

---

**Short Statement:** First author of “The Suitability of the SPAR-H “Ergonomics/HMI” PSF in a Computerized Control Room in the Petroleum Industry”

Karin Laumann is the second author of this paper and Rasmussen’s Ph.D. Supervisor.

---

#### BIOGRAPHY

Martin Rasmussen obtained his Bachelor in Psychology at the University of Tromsø, The Arctic University of Norway, and his Master of Science in Psychology at the Norwegian University of Science and Technology, where he now is currently a PhD Candidate in Psychology under the supervision of Associate Professor Karin Laumann.

His current research is on the adaptation of human reliability analyses to the petroleum industry. He has a special interest for areas where humans interact with technology and complex systems. He has previously researched and is still interested in sports and exercise psychology.
