

Pierre Henneaux

PSAM12 Speaker Bio

Methodologies for a dynamic probabilistic risk assessment of the fast cascade occurring in cascading failures leading to blackouts

First author of the paper

BIOGRAPHY

Pierre Henneaux received his M.Sc. degree in Physics Engineering in 2009 and PhD degree in Applied Sciences in 2013, both from the Université libre de Bruxelles (ULB), Brussels, Belgium. He is currently Fonds de la Recherche Scientifique - FNRS Research Fellow at the ULB and Research Associate at the University of Washington (UW), Seattle, WA, USA. His research fields are the reliability of power systems and blackout risk analysis.
