The Effects of Including Societal Consequences for Decisions on Critical Infrastructure Vulnerability Reductions

Short Statement: Author

BIOGRAPHY

I am a currently a PhD student at the Division of Risk Management and Societal Safety at Lund University. I have a B.Sc. degree in Fire Protection Engineering and a M.Sc. degree in Risk Management and Safety Engineering from Lund University. My main field of research concerns the development and application of methods and models to assess interdependencies between critical societal functions and infrastructures. I am also associated with the Centre for Societal Resilience and Lund University Centre for Risk Assessment and Management (LUCRAM).
