PSAM12 Speaker Bio

Achieving a Total Safety Culture through Behavior Based Safety, Establishing and Maintaining an Injury Free Culture

Short Statement: Author

BIOGRAPHY

Presently I am a Senior Lecturer in Safety Management at the University of South Africa (UNISA) in the Department of Business Management. I am Area coordinator for the Safety, Health and Environmental section of the university and also Program Leader for the Program: Safety Management in the Centre for Business Management, UNISA. In 1985 I started in the academia setting and am full time lecturing since 2002. One of my curricular activities is consulting various South African companies on a regular basis in order to bring balance between academia and practice. My expertise, knowledge and experience assist me for serving on several committees.

My academic qualifications include a Masters in Occupational Safety and Health (Columbia Southern University, USA), BTech: Safety Management and Diploma: Safety Management (Unisa). Professionally, I am registered as a safety professional and member of the American Society for Safety Engineers (ASSE). I have authored a number of publications in local journals and chapters in text books, and presented papers at local and international conferences on topics concerning Safety Management and Risk Management and Occupational Health and Safety in general, as well as Behavior Based Safety. My research interest includes the field of Occupational Safety, Health, Environment and Risk Management.

Articles published include the following:

- *Education of safety and health professionals at a higher education institution in South Africa: curriculum development.* (2010)
- *Perceptions on Safety Management within South African small and medium enterprises (SME's)* African Safety Journal December 2011.
- *A BCom Occupational Safety and Health Degree curriculum for mining and other manufactures* Mine Ventilation Society Journal February 2012.
- *Incident rates of small and medium enterprises in South Africa* Journal of Contemporary Management April 2012.
