#### **BIOGRAPHY**

Mr. Jänkälä (born 1956, M. Sc. in Engineering Physics and Licentiate in Technology in Nuclear Engineering) is with Fortum Corporation in Finland as a PRA manager in Nuclear Safety Department. He has experience since 1983 (Imatran Voima Oy and since 1999 Fortum) in reliability engineering including availability and risk assessment, reliability data collection and analysis, and since 1985 in PRA, both internal and external events covering severe weather and man-made events, flood, fire and seismic, for power and non-power states. Before that in 1982-83 he was a physicist in Reactor Laboratory of Technical Research Centre of Finland and 1978-1981 he was a teaching assistant in reactor physics in Helsinki University of Technology.
