

Dennis R. Damon, Ph.D.

PSAM12 Speaker Bio

The Underlying Principles and Quantitative Values of Risk Limits

Short Statement: Sole author

BIOGRAPHY

Dennis Damon currently serves as Senior Level Advisor for Risk Assessment for the United States Nuclear Regulatory Commission's (USNRC) Office of Nuclear Materials Safety and Safeguards. This office regulates nuclear enrichment, fuel, and waste facilities, and spent fuel facilities, packages, and radioactive material transportation. He has been with the USNRC since 1994. Prior to that time, he worked 15 years for GE's Advanced Nuclear Technology Operation in Sunnyvale, California, developing Probabilistic Risk Assessment methods.
